

18" Antimicrobial Microfiber Pad, 18", Black/Blue T0030-00

Features

- Improved cleaning performance: The antimicrobial microfiber pad features multidirectional scrubbing capabilities that effectively remove dirt, grime, and stains from floors and surfaces, providing superior cleaning performance and leaving surfaces spotless and streak-free.
- Enhanced absorbency: The microfiber inner liner of the pad provides improved absorbency, allowing it to hold more liquid and clean more efficiently than foam-lined pads. This helps to reduce the number of passes required to clean a surface, saving you time and effort.
- Prevents cross-contamination: The color-coded tabs on the pad help prevent cross-contamination by making it easy to assign specific pads for different areas, reducing the risk of spreading bacteria and other contaminants.
- Antimicrobial protection: The antimicrobial properties of the pad prevent the growth and spread of bacteria, ensuring that your cleaning tools stay clean and hygienic.
